LEGAL

Terms of Service

Last updated September 24, 2026

These Terms of Service ("Terms") govern your access to and use of DeltaMint (the "Service"), software for options traders — spreads, iron condors, cash-secured puts, covered calls and single options — working in their own brokerage account. By creating an account or using the Service, you agree to these Terms. If you do not agree, you may not use the Service.

1. Eligibility

You must be at least 18 years old and resident in a jurisdiction where options trading is permitted. By using the Service you represent that you meet these requirements, that you have the legal capacity to enter into these Terms, and that any brokerage account you connect is one you own and are authorised to trade.

2. What DeltaMint is — and isn't

DeltaMint screens option chains against filters you set, groups the positions in your connected brokerage account back into the structures you traded, shows live profit and loss and risk, and submits orders to your broker at your direction.

DeltaMint is **not** a broker-dealer, investment adviser, exchange, or custodian. We do not hold, receive, or have custody of your funds or securities, we do not open or maintain brokerage accounts, and we do not execute trades ourselves. Every order is routed to and executed by your own broker under that broker's terms.

3. Your account

You are responsible for keeping your login credentials confidential and for all activity under your account. You agree to provide accurate information, keep it current, and tell us promptly of any unauthorised use.

4. Brokerage connection

The Service connects to third-party brokerage services through secure API connections, using an authorisation you grant through your broker's own connection flow. You may revoke that authorisation at any time through your broker, or by disconnecting the account in the Service.

Your relationship with your broker is separate from your relationship with DeltaMint and is governed by that broker's own agreements. You are solely responsible for your brokerage account, for your trading decisions, and for complying with your broker's terms. We do not guarantee the availability, accuracy, or continuity of any brokerage connection.

5. No investment advice

DeltaMint provides software tools for informational purposes only. We do not provide investment, financial, legal, or tax advice, and nothing in the Service is a recommendation, solicitation, or offer to buy or sell any security.

Scanner results list the contracts matching filters *you* configured. Their ranking, ordering, or presence in a list is not a recommendation and expresses no view about any security. All trading decisions are yours alone.

6. Trading risk

Options trading, including spreads, iron condors, cash-secured puts and covered calls, involves substantial risk of loss and is not suitable for every investor. You may lose the entire amount at risk in a position. Defined-risk structures limit the maximum loss at expiration but do not eliminate loss. A cash-secured put can be assigned, leaving you holding shares whose value can fall to zero; a covered call caps the gain on the shares or position beneath it and can have them called away. Assignment, early exercise, gaps, halts, or illiquidity may produce outcomes worse than a model suggests.

Before trading options you should read Characteristics and Risks of Standardized Options, published by the Options Clearing Corporation.

Figures shown in the Service — profit and loss, break-even points, maximum risk, return on risk, and historical results — are estimates calculated from market data that may be delayed, incomplete, or inaccurate. Past performance does not guarantee future results.

7. Order submission and configurable rules

Orders are submitted only in response to an instruction you give, or according to a rule you configured in advance. Where the Service adjusts a working order — for example moving a limit price toward the market within limits you set — it executes parameters you configured, at your direction. The Service does not exercise discretion over your account and does not decide what or when to trade.

Orders depend on infrastructure DeltaMint does not control, including your broker's API, market data feeds, and the network between them. You acknowledge that: an order may be rejected, delayed, filled at a different price than quoted, partially filled, duplicated, or not filled at all, because of a broker-side error, a mismatch between the order's parameters and your broker's account state, a network or connectivity failure, a platform outage on either side, or a defect in the Service; that figures shown by the Service — credit, risk, break-even, and any other calculated value — are estimates that may be inaccurate, delayed, or based on stale market data; and that you remain solely responsible for verifying an order's outcome with your broker, and for any loss arising from a technology failure, data inaccuracy, or execution issue of this kind, and for monitoring your open positions.

8. Subscription and fees

Paid plans are billed in advance on a recurring monthly or yearly basis and may be cancelled at any time, effective at the end of the current billing period. Fees are for access to the software only. We charge no commission, take no share of your trading profits, and receive nothing contingent on your trading activity or volume. Any commissions, fees, interest, or spreads charged by your broker or other third parties are separate and are your responsibility.

9. Acceptable use

- Don't use the Service for any unlawful purpose.
- Don't attempt to access another user's account or data, or gain unauthorised access to our systems.
- Don't interfere with, disrupt, scrape, or overload the Service.
- Don't reverse engineer or decompile the software.
- Don't use the Service to manipulate markets or engage in fraudulent activity.
- Don't share your account credentials.
- Don't use the Service in violation of your broker's terms, applicable securities law, or exchange rules.

10. Intellectual property

All content, features, and functionality of the Service — including text, graphics, logos, software, and the design of its screening and analysis tools — are owned by DeltaMint and protected by intellectual property law. You may not copy, modify, distribute, or create derivative works without our written consent.

11. Disclaimer of warranties

The Service is provided “as is” and “as available” without warranties of any kind, express or implied, including implied warranties of merchantability, fitness for a particular purpose, and non-infringement. We do not warrant that the Service will be uninterrupted, timely, secure, or error-free, that market data or calculated figures will be accurate or current, or that defects will be corrected.

12. Limitation of liability

To the maximum extent permitted by law, DeltaMint and its officers, directors, employees, and agents shall not be liable for any indirect, incidental, special, consequential, or punitive damages, including trading losses, lost profits, or data loss, regardless of the theory of liability. Our total aggregate liability shall not exceed the amount you paid us in the twelve months preceding the claim.

13. Indemnification

You agree to indemnify and hold harmless DeltaMint, its officers, directors, employees, and agents from any claims, damages, losses, liabilities, and expenses (including reasonable legal fees) arising out of your use of the Service, your violation of these Terms, your trading activity, or your violation of any third-party rights.

14. Termination

We may suspend or terminate your account and access to the Service at any time, with or without notice, including for breach of these Terms. You may stop using the Service and disconnect your brokerage account at any time. Provisions that by their nature should survive termination — including intellectual property, disclaimers, limitation of liability, and indemnification — survive.

15. Changes to these terms

We may modify these Terms. Material changes will be notified by posting the updated Terms and revising the date above. Continued use after a change constitutes acceptance. If you do not agree to the modified Terms, you must stop using the Service.

16. Severability and entire agreement

If any provision is found unenforceable, it shall be limited or removed to the minimum extent necessary and the remaining provisions remain in force. These Terms, together with our Privacy Policy, constitute the entire agreement between you and DeltaMint regarding the Service.

17. Contact

Questions about these Terms may be sent to support@deltamint.app.

δ deltamint

DeltaMint is a software tool, not a broker-dealer, and does not provide investment advice. Options trading involves substantial risk of loss and is not suitable for every investor. Trades are placed through your own brokerage account, under that broker's terms.
